

San Mateo Harbor District 2021 Redistricting Draft Maps

Agenda

Things we will cover:

- What is Redistricting
- Traditional Redistricting Principles
- Fair Maps Act
- Existing Lines
- Draft Maps with overlays

What is Redistricting

Definition

Redistricting is the process of adjusting district lines every 10 years after the release of the U.S. Census. The well-known examples are Congress and the legislature.

Within the U.S., redistricting has become an extremely politicized process and has been the subject of more high-profile Supreme Court decisions than any other part of our elections system.

Traditional Redistricting Principles

Preventing a Districting from Becoming a Gerrymander

There are a number of criteria that have been used nationally and upheld by courts.

- Relatively equal size – people, not citizens
- Follow the Voting Rights Act
- Contiguous – districts should not hop/jump
- Keep districts compact – appearance/function
- Maintain “*communities of interest*”
- Follow city/county/local government lines

Communities of Interest

Bringing like-minded people together for representation

A community of interest includes ethnic and language minorities and other groups.

Communities covered by the Voting Rights Act

- Latinos
- Asians
- African Americans

While race is a community of interest, it cannot be the *predominant factor* in drawing districts.

Fair Maps Act (2019)

Preventing a Districting from Becoming a Gerrymander

Starting in 2020, cities and counties doing redistricting have additional criteria they must follow under the California Fair Maps Act. This becomes a “best practice” for all agencies.

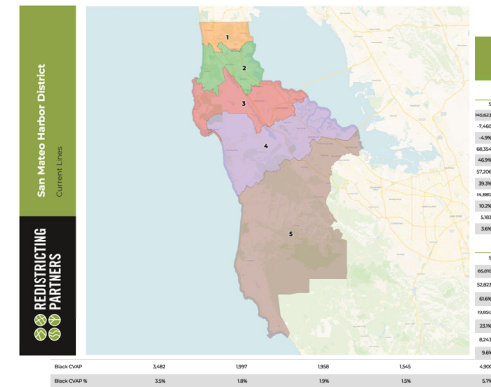

- Process/transparency when conducting redistricting
- Not using incumbent or candidate residence as a Community of Interest
- Not drawing districts to advantage a political party

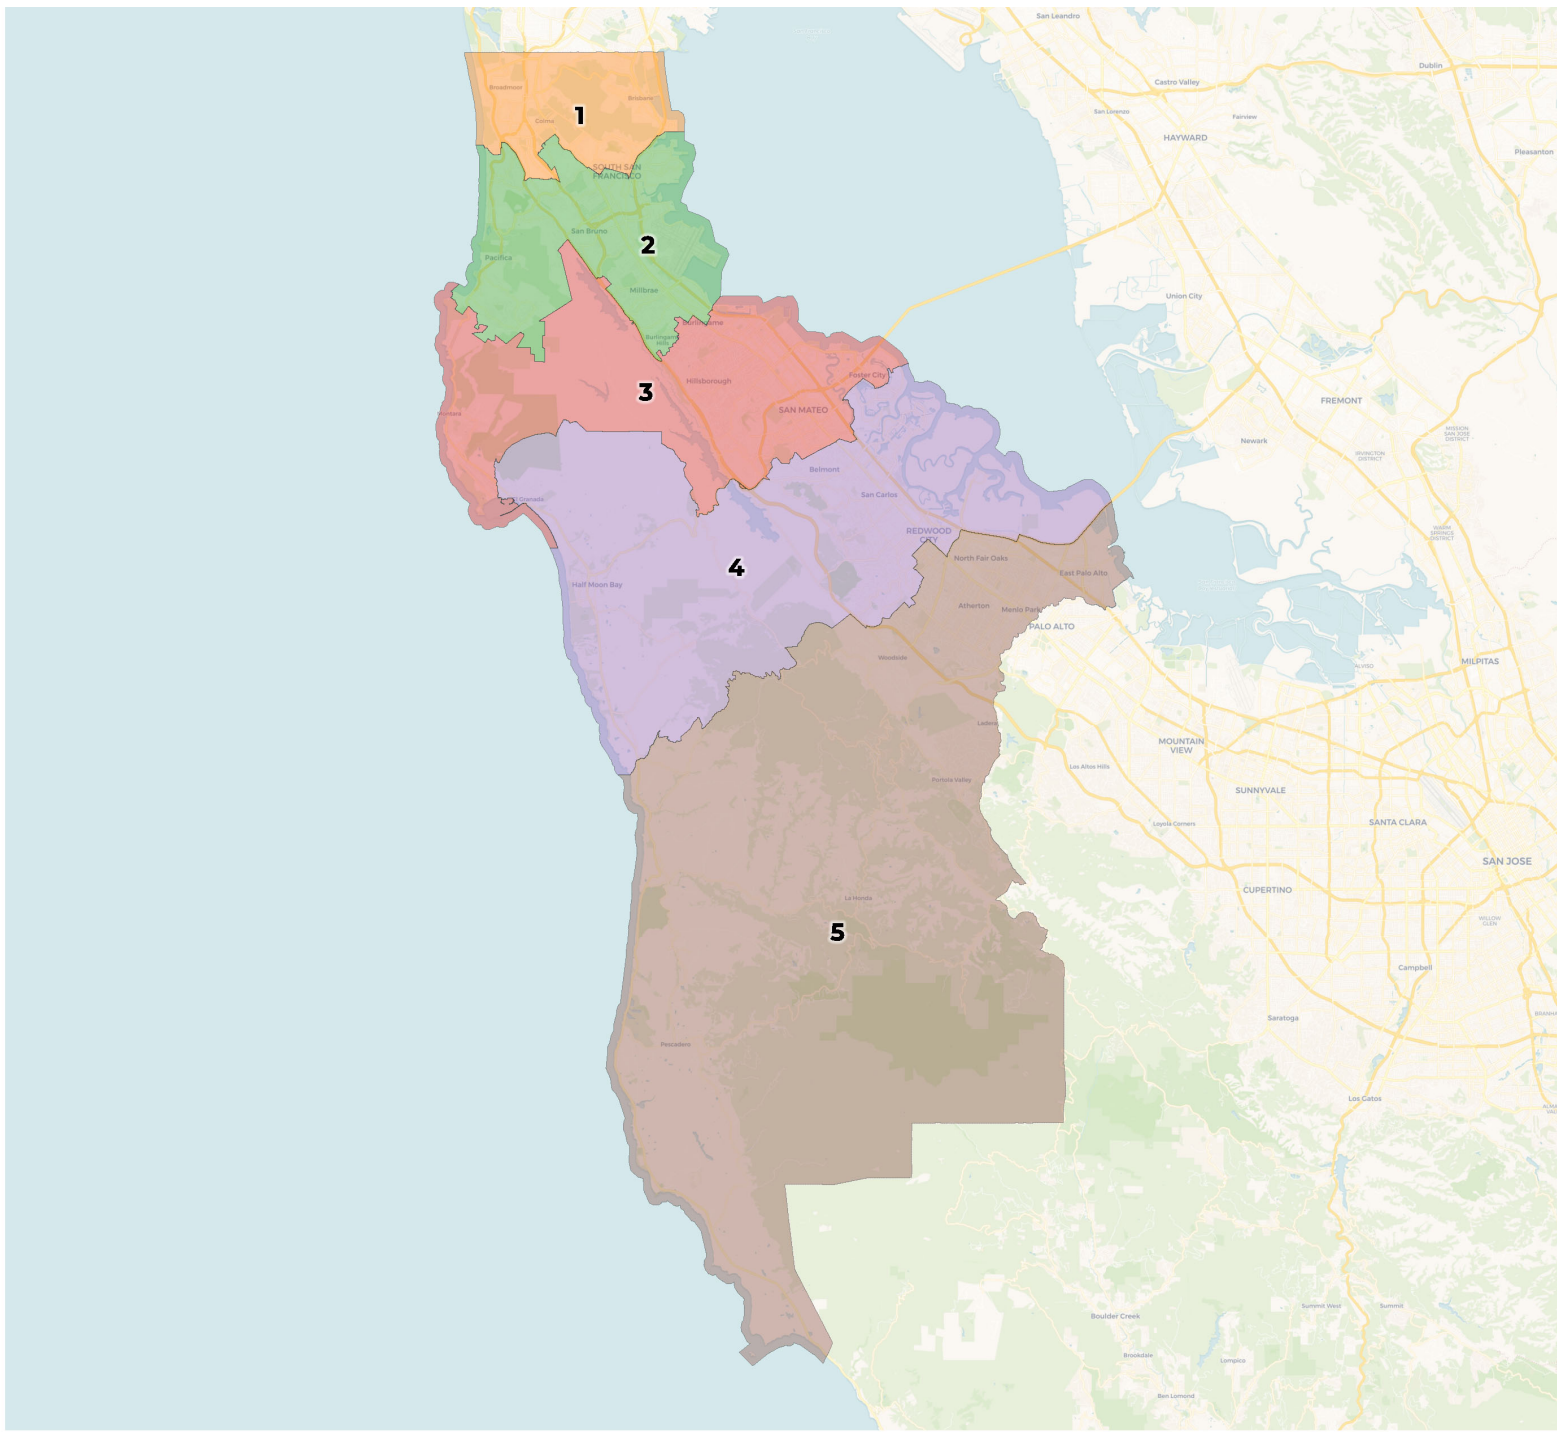

These rules do not currently apply directly to the San Mateo Harbor District, but redistricting best practices will likely push most agencies to voluntarily adopting them.

From COI to Maps

With more districts using commission-based redistricting, we move redistricting out into the public, with maps driven by Community of Interest testimony.

- **Input from community drives process** with multiple ways for the public to engage.
- **Rules for process** emphasize the importance of traditional criteria and minimizing divisions of neighborhoods.
- **Releasing maps for feedback** – today we will see plans to spark more public engagement.

San Mateo Harbor District

Draft Map Plans A, B & C

Commissioners were provided a packet with three consultant created plans based on traditional redistricting criteria. These maps were posted to the website for the public five days prior to tonight's Draft Map hearing.

- Each draft has been created with a less than 10% total deviation
- Each draft plan is provided with both a PDF and Online Web-based format

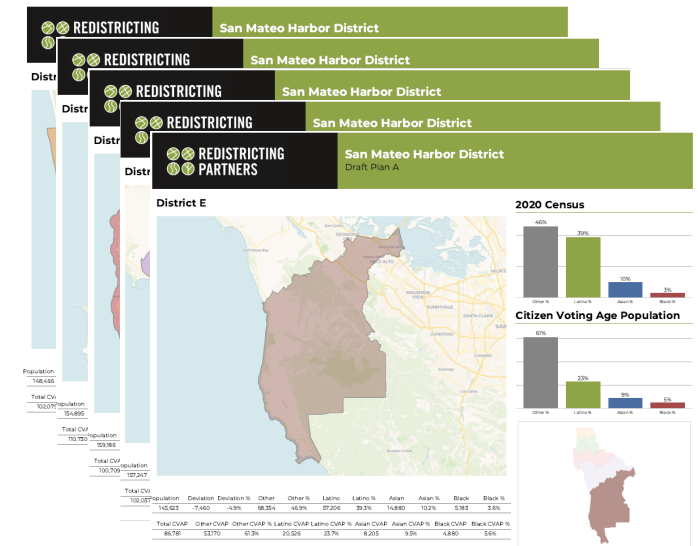

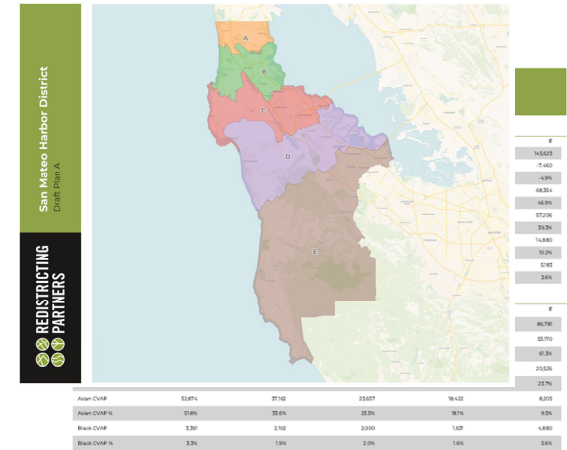

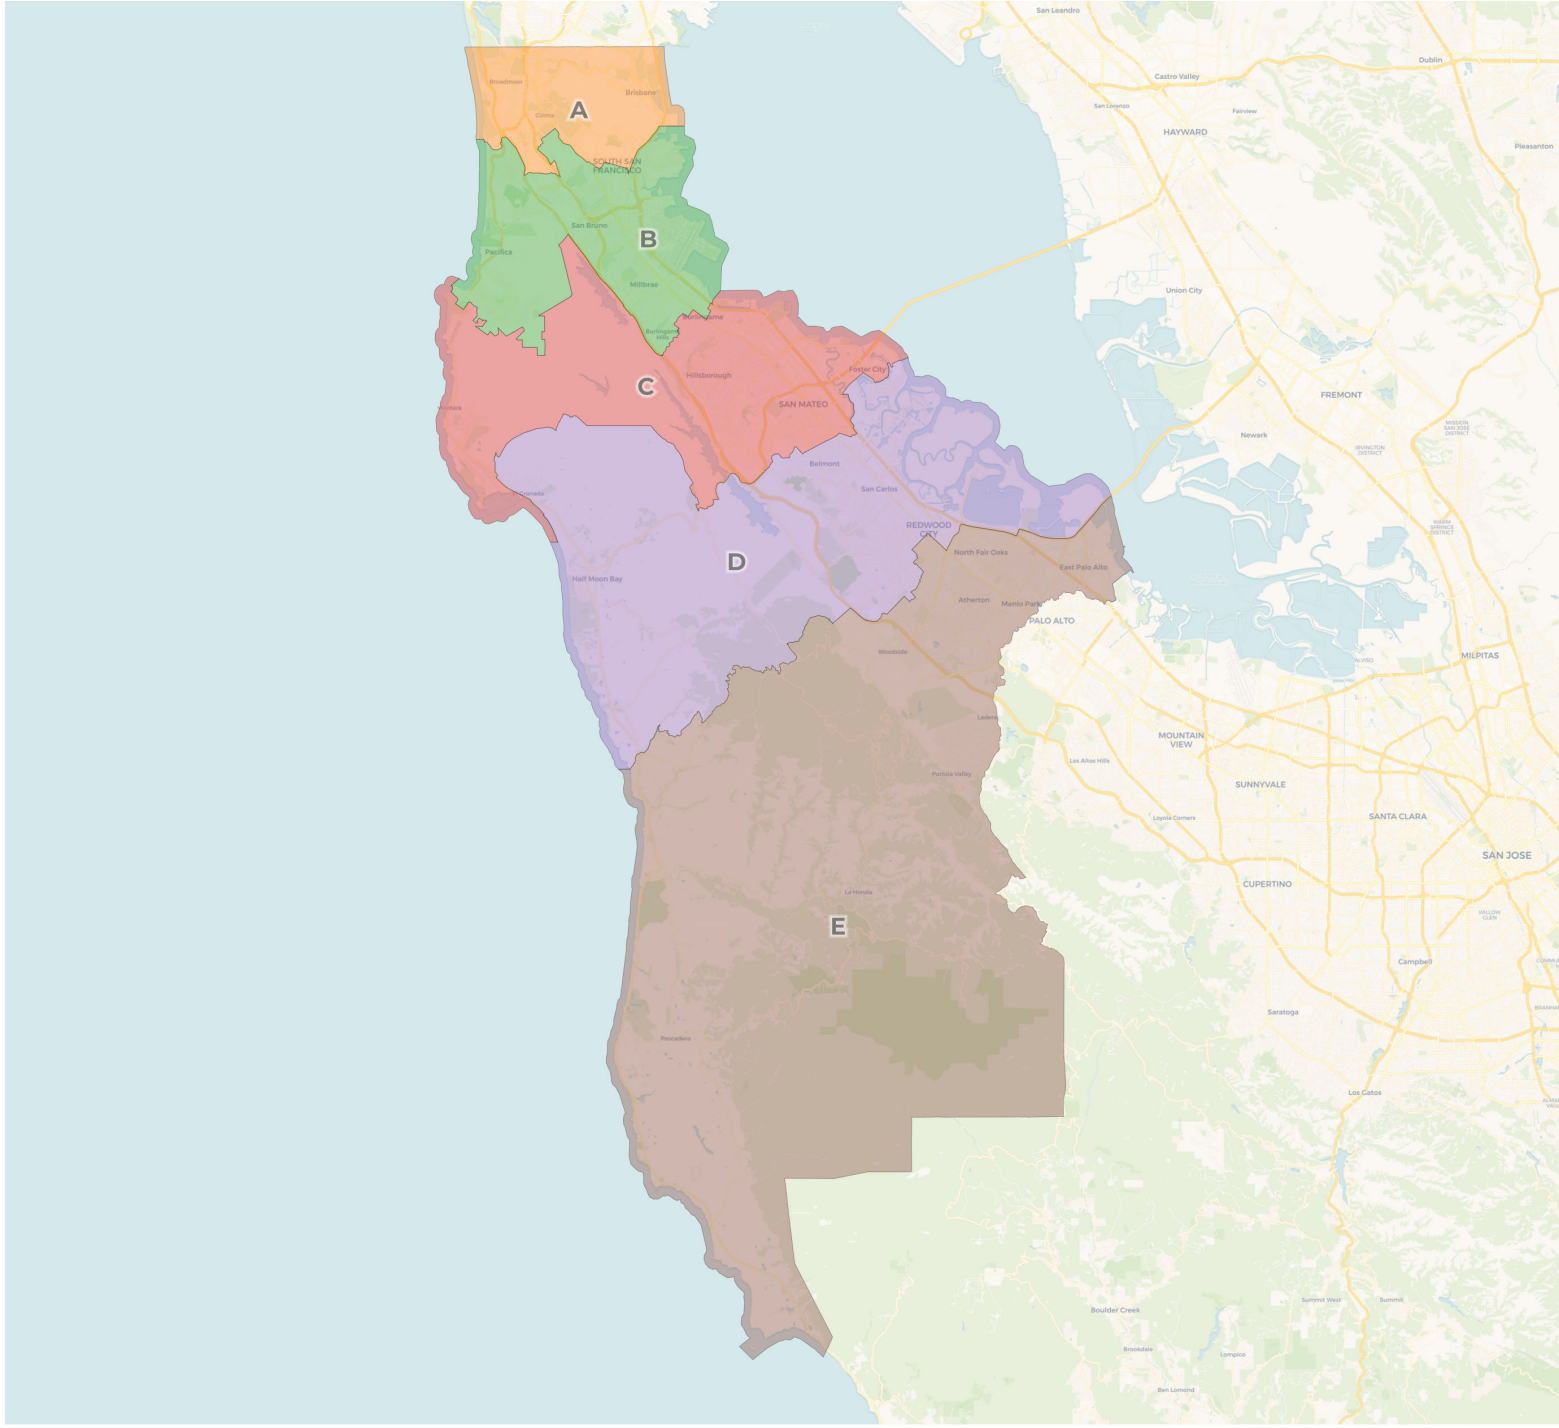

Draft Plan A

Minimal Change

We have created draft plans based on the traditional redistricting criteria

- Existing lines adjusted for population
- Adjusts existing lines for current population with a deviation of 8.9%
- Made minimal changes to Districts D1 & D2 and Districts D4 & D5.

2020 Census

	A	B	C	D	E
Population	148,466	154,895	159,186	157,247	145,623

San Mateo Harbor District
Draft Plan A with Current District
Line Overlay

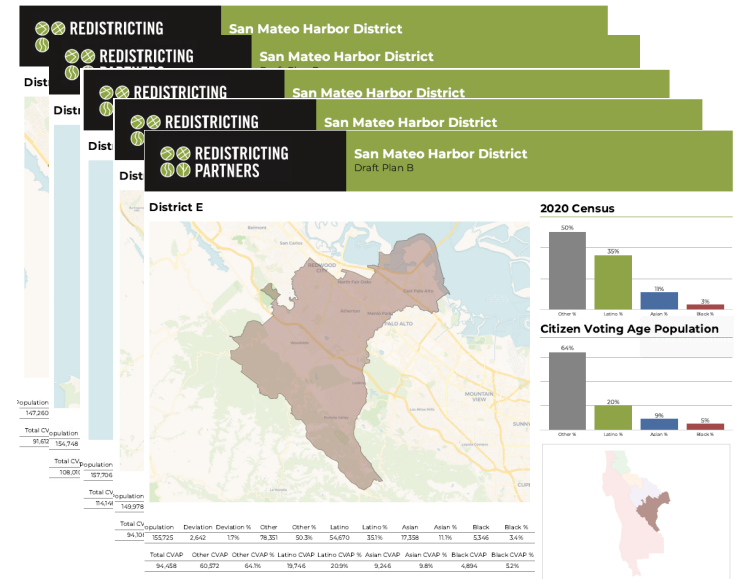

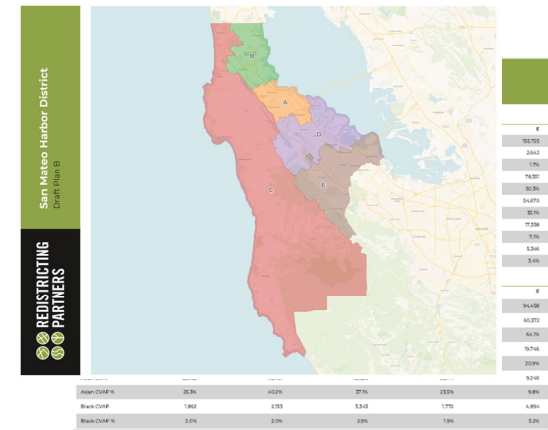

Draft Plan B

One Pacific Coast District

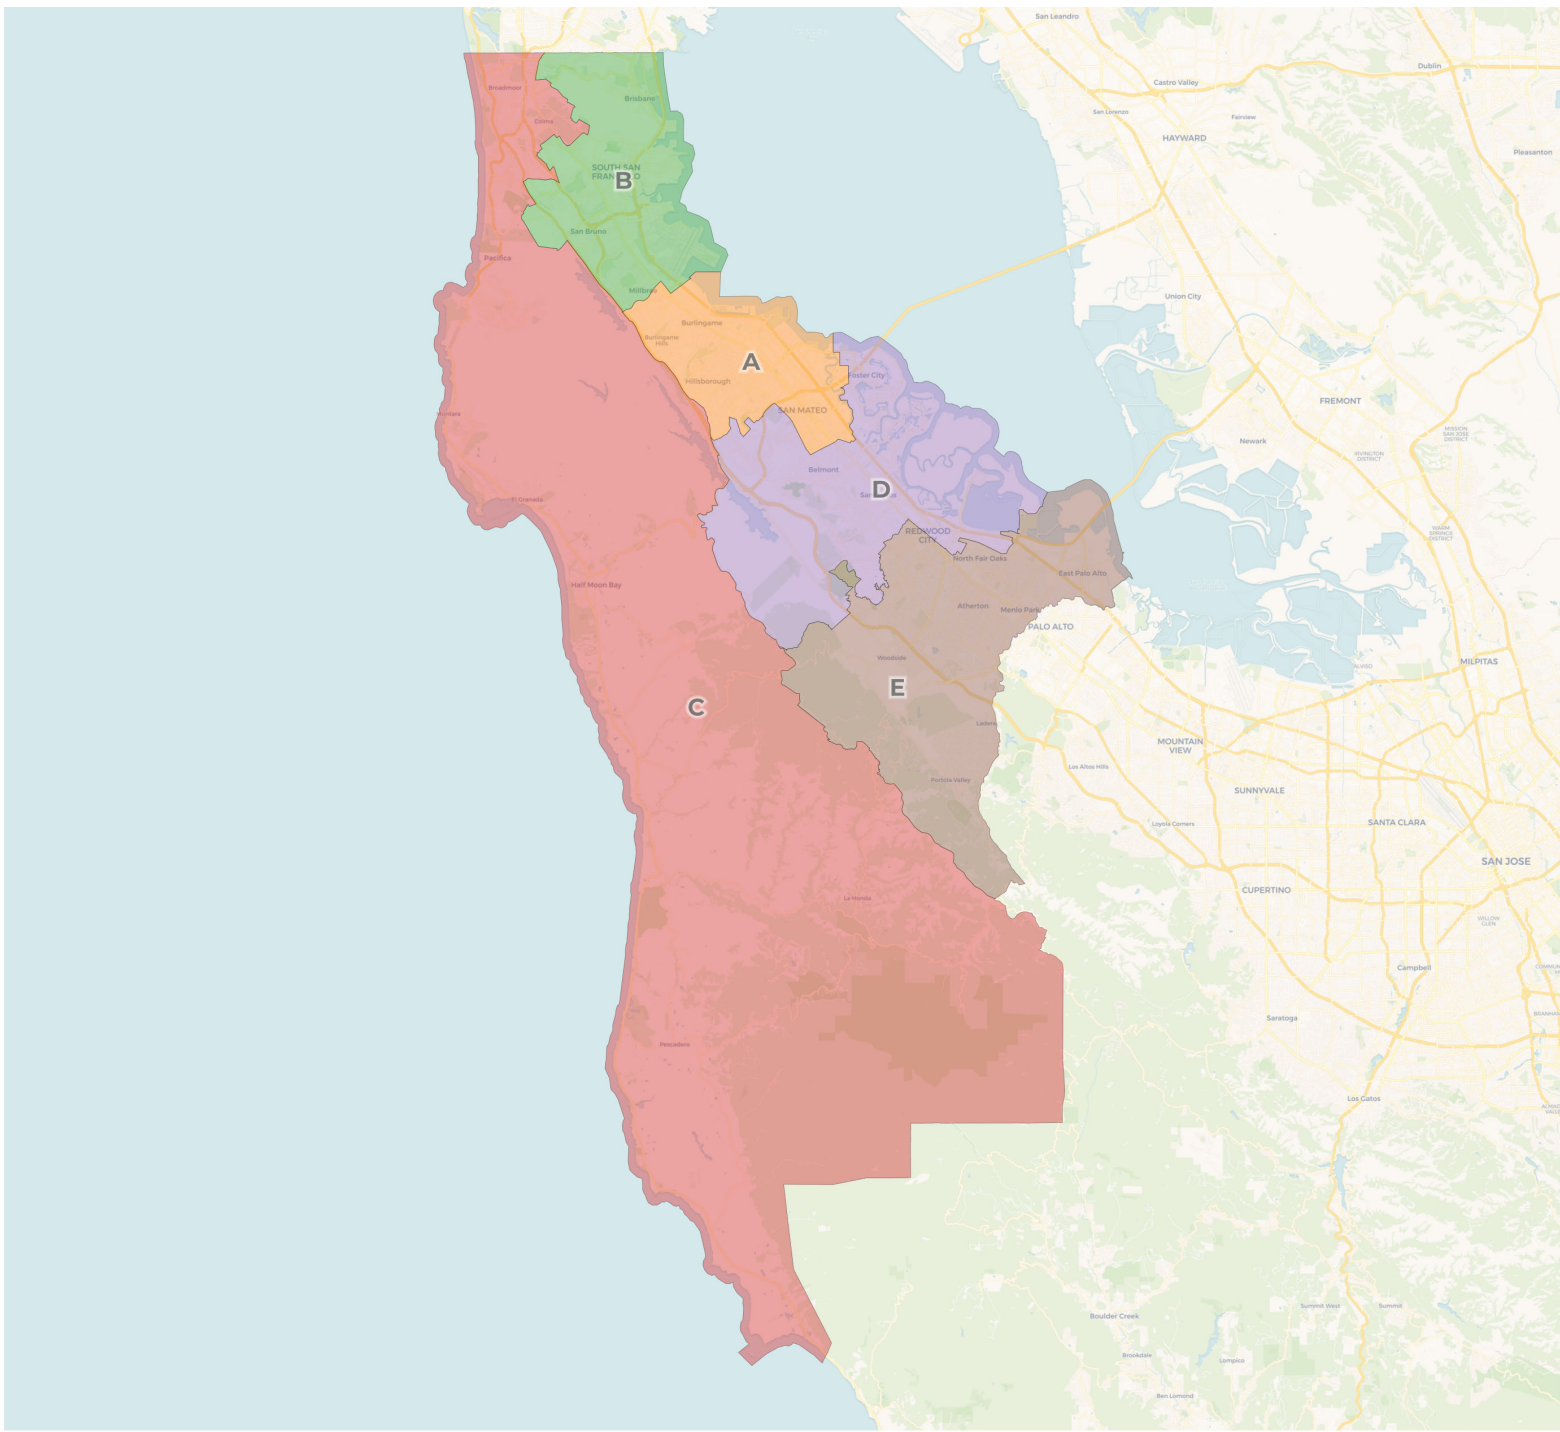

We have created draft plans based on the traditional redistricting criteria

- One district spanning the entirety of the Pacific Coast in the harbor district.
- Millbrae split between Districts A and B
- City of San Mateo split between Districts A and D
- Redwood City split between districts D and E.

San Mateo Harbor District Redistricting Process

Next Steps

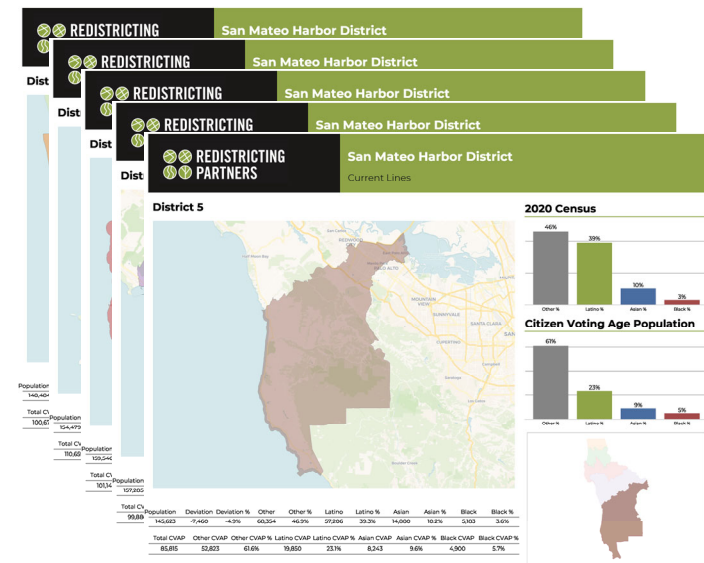

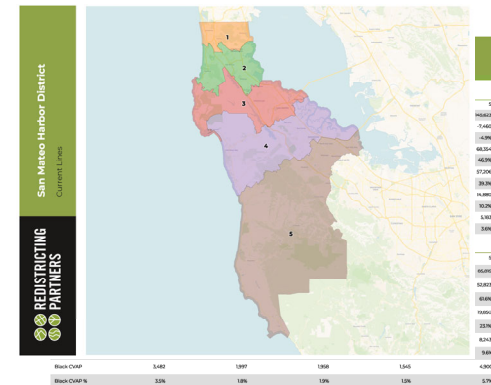

January – Review of revised draft maps & selection of final maps. Board will review draft maps with changes from prior meeting, and select one set of maps to move to a final vote. Additional changes can be made to draft maps selected.

February – Vote on final maps.

What's Next

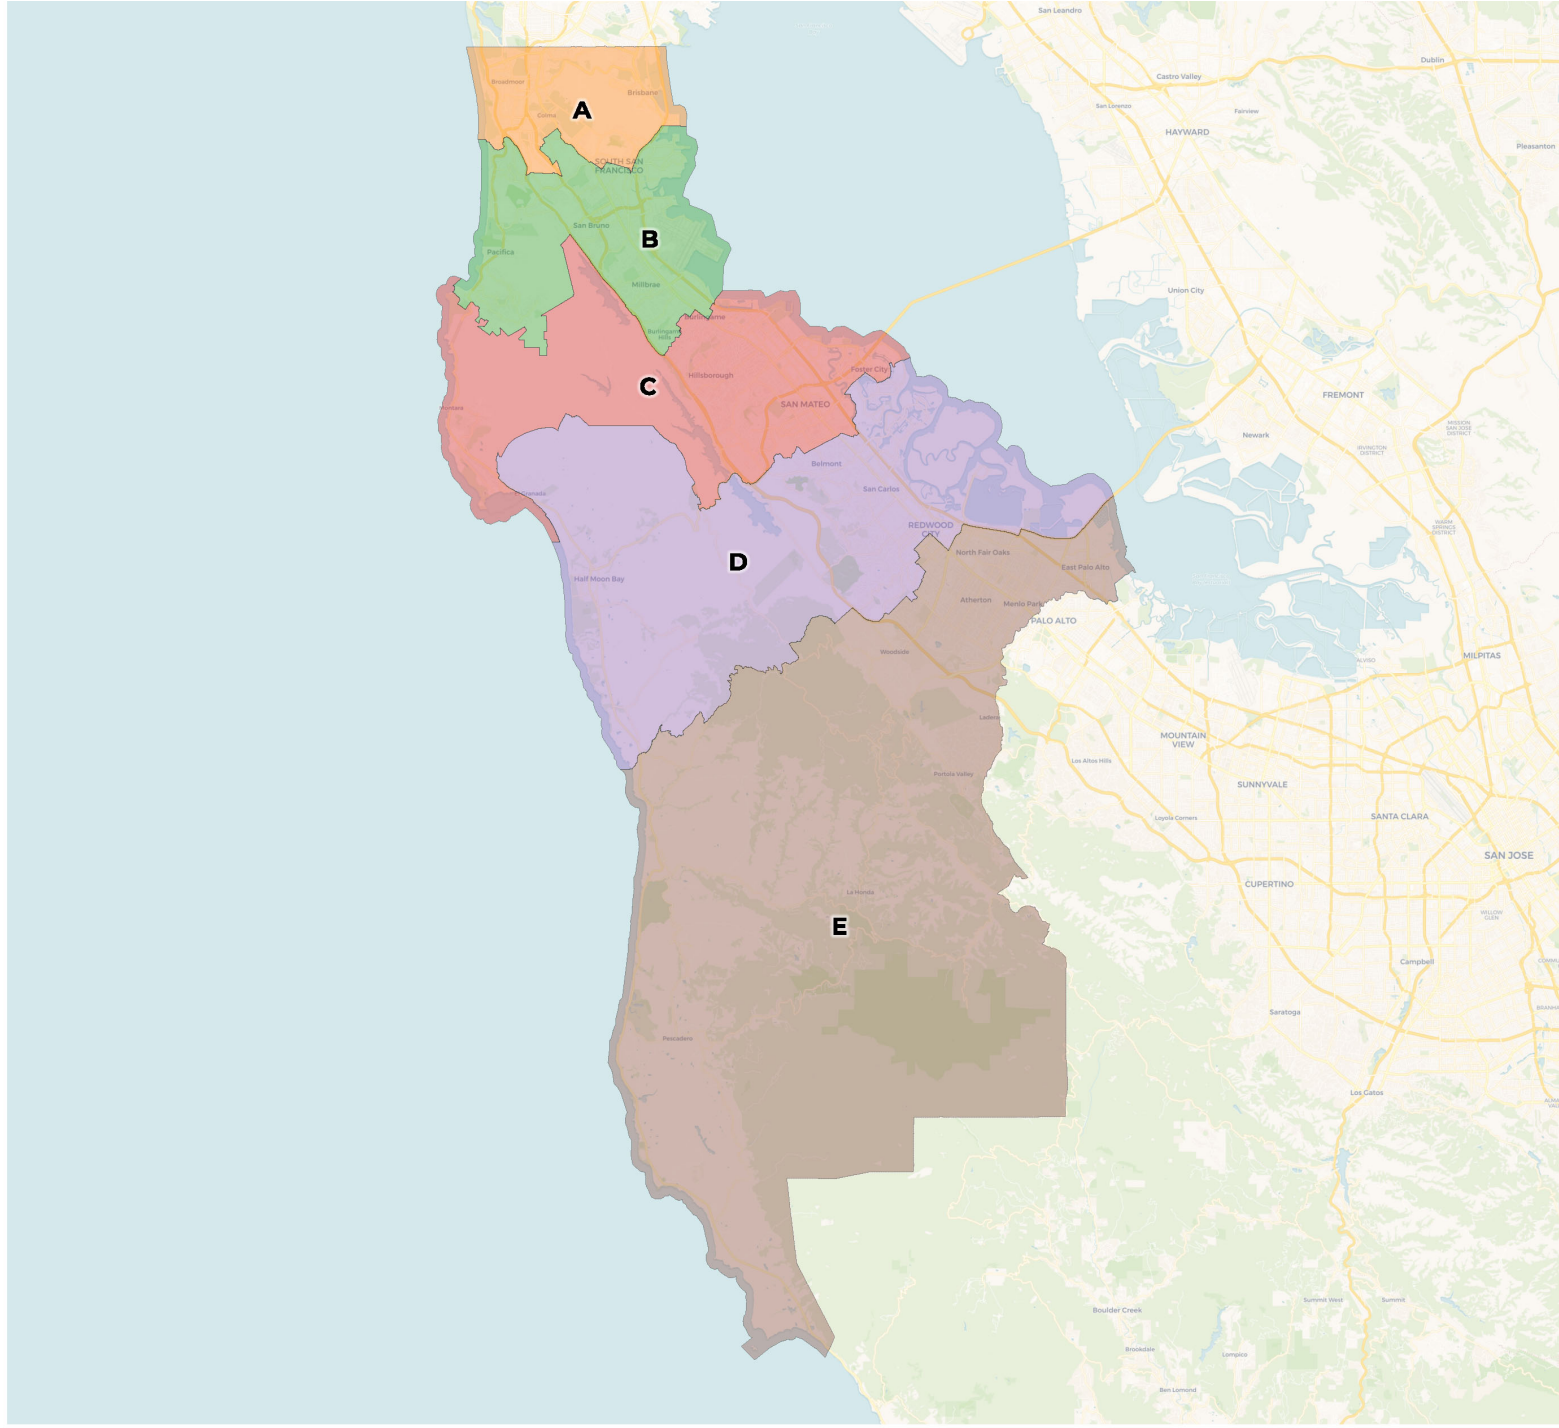

The board can make use of these mapping options in a number of ways.

- **Identify preferred plan(s)** with an understanding that none of these are final plans. *It is an iterative process.*
- **Suggest possible changes** – Redistricting Partners can provide adjustments to the boundaries.
- **Put out for public input** – the public will be very willing to tell us where we got the lines wrong. Input is our ally in developing final plans.
