Subject: SMC Harbor Commission Special Meeting - 10/18/19

Harbor Commissioners,

I understand that new commission leadership has called for a special (closed) meeting this Friday to hire a new General Manager, knowing one of five commissioners will be out of the country this day. This is a blatant act to shield transparency and public participation and reeks of an inappropriate practice of commissioners using their positions and aligning themselves against other commissioners to control decisions the full commission and public should be included in.

Please push this meeting to a future date when all commissioners and the public can attend.

Kris Lannin Liang
